With over 25 years of brush making tradition, Crown Brush has become the leading industry resource for cosmetic and skincare brushes. Crown Brush has an extensive global distribution network with a very knowledgable and experienced staff which fully facilitates all of your brush needs. Utilizing master craftsmanship, Crown is a leader in recognizing and manufacturing top quality brushes from the finest materials available. Crown offers the largest and finest open stock selection of professional quality brushes anywhere. Crown also offers a private label division that allows our clients to private label any of our open stock brushes at the industry’s lowest minimums.

**ALL CROWN BRUSHES ARE 100% ANIMAL CRUELTY FREE.**

**ABSOLUTELY NO ANIMALS ARE HARMED OR DESTROYED FOR THE PURPOSE OF MAKING OUR BRUSHES.**

Crown is dedicated to the environment by constantly implementing new and more efficient manufacturing procedures that are environmentally responsible. Crown only partners with suppliers whose handles come from managed reforestation cooperatives. All natural bristles are purchased from fully licensed & accredited suppliers that adhere to a strict non-cruelty code of ethics.

Crown truly appreciates the patronage and loyalty of all our customers who have supported us for over 25 years. We look forward to remaining the professional’s premiere choice for brushes and servicing our revered industry for years to come.

Thank you,

Crown Brush
What are Crown Brushes made of?...

**Italian Badger™**
Italian Badger™ is a luxurious and soft blend of bristle. It's perfect for powder and mineral base products. Ideal for achieving a light and even coverage.

**Sable/Goat Mixture**
Most of our powder and blush brushes are constructed with this bristle mixture. Use on the face to apply, contour and blend powder products.

**Sable**
Sable is used to construct brushes that require a specific shape. This natural fiber is great when used to apply powders and bronzers and products that require blending.

**Squirrel**
Squirrel is an ultra soft bristle that is perfect for loose powder products.

**Capra/Goat**
This natural and soft bristle is used in powder and treatment brushes. Ideal for body shimmers and for post microdermabrasion dusting.

**Sable Blend**
Sable Blend is a mixture of different thickness and grades of sable. This blend is soft yet dense and is perfect to apply a deep and defined layer of shadow products. Great to blend and contour.

**Red Sable**
Red sable is the finest natural bristle used primarily for smaller precision applications. Red Sable is extremely tight and firm. Great for liquid creme or powder products.

**Polystyrene**
Polystyrene is a coarse synthetic fiber that is used in brow brushes and other esthetic application brushes.

**Boar**
Boar is a thick and durable natural bristle. Primarily used in facial treatment brushes.

**Boar/Badger Mixture**
This coarse natural blend is stiff but not abrasive to the skin. Great for brow application. Carries product evenly and helps sculpt the brow as well.

**Syntho™ Fiber**
Syntho™ fiber is a high grade synthetic fiber that is thinly extruded to mimic natural bristle. Each tip is razor cut to further soften the tips. Perfect for powder, liquid and creme products. Syntho™ is extremely versatile and durable.

**Grey Taklon**
**“*See Below”**

**Torray Taklon**
**“*See Below”**

**Two-Tone Taklon**
**“*See Below”**

**White Taklon**
**“*See Below”**

*Taklon is a 100% synthetic fiber. Taklon is made in different colors, but they all have the same function. Taklon bristle does not absorb product. They are perfect for liquid and creme products like foundations, concealers, and lip products.*
The Italian Badger Series is our signature luxury brush series. Our Badger bristle is an ultra soft natural bristle that ensures a natural and flawless application everytime. Used with mineral, loose powder and traditional cosmetics, each brush is custom designed with the needs of professionals in mind. This series features a polished chrome ferrule, with a mahogany wood handle coated in a high gloss finish.
